Marine Corps Liaison Defense Manpower Data Center

M&RA
Manpower Management Information System Support Division (MI)

Colonel P.D. Bennett
Director, MI

Mr. R.L. Brown
Deputy Director, MI

LtCol M.J. Messina
Marine Corps Liaison
Defense Manpower Data Center

SSgt C.V. Cruz
Marine Corps Analyst
Defense Manpower Data Center

How Marine Corps data is used:

- Marine Liaison reformats Marine Corps Data for use in DOD systems, designed to “take care of our Service Members”.
- Information also used to aid decision makers at HQMC, DoD, Congress, Executive Branch.
  - Benefits (DEERS, VA, MGIB)
  - Budgeting
  - Facilities
  - End-Strength
  - Mobilization
  - Various statistics, studies and Thesis work.

References

- DoDI 1336.6 - Automated Extract of Active Duty Military Personnel Records
  - Regular component reporting
  - PERSTEMPO reporting (Total Force)
  - Contingency reporting (Total Force)

- DoDI 7730.54 - Reserve Component Common Personnel Data System (RCCPDS)
  - Reserve component reporting

How Marine Corps data is used:

- Raw Marine Corps data is received by secure networks (from MISSA/ DFAS/ DECC) into a “Master” file maintained at DMDC / NPS.
- Raw data is reformatted by liaisons which prepares it for use by DMDC file managers / systems.

What we send to DoD

- Daily
  - PERSTEMPO Transaction File
    - “Total Force” File
      - Officer/Enlisted/Reserve/Regular
    - Gains and Losses
  - Contingency Transaction File
    - “Total Force” File
      - Officer/Enlisted/Reserve/Regular
    - Gains and Losses

What we send to DoD *Cont'd*

- Monthly
  - Reserve Component
    - Reserve Transaction File
    - Reserve Master File
  - Regular Component
    - Regular Transaction Files
    - Regular Master Files

What we send to DoD *Cont'd*

- Weekly
  - Reserve Transaction File
    - Combined Officer and Enlisted file
  - Regular Component Transaction Files
    - Two separate files
      - Officer
      - Enlisted

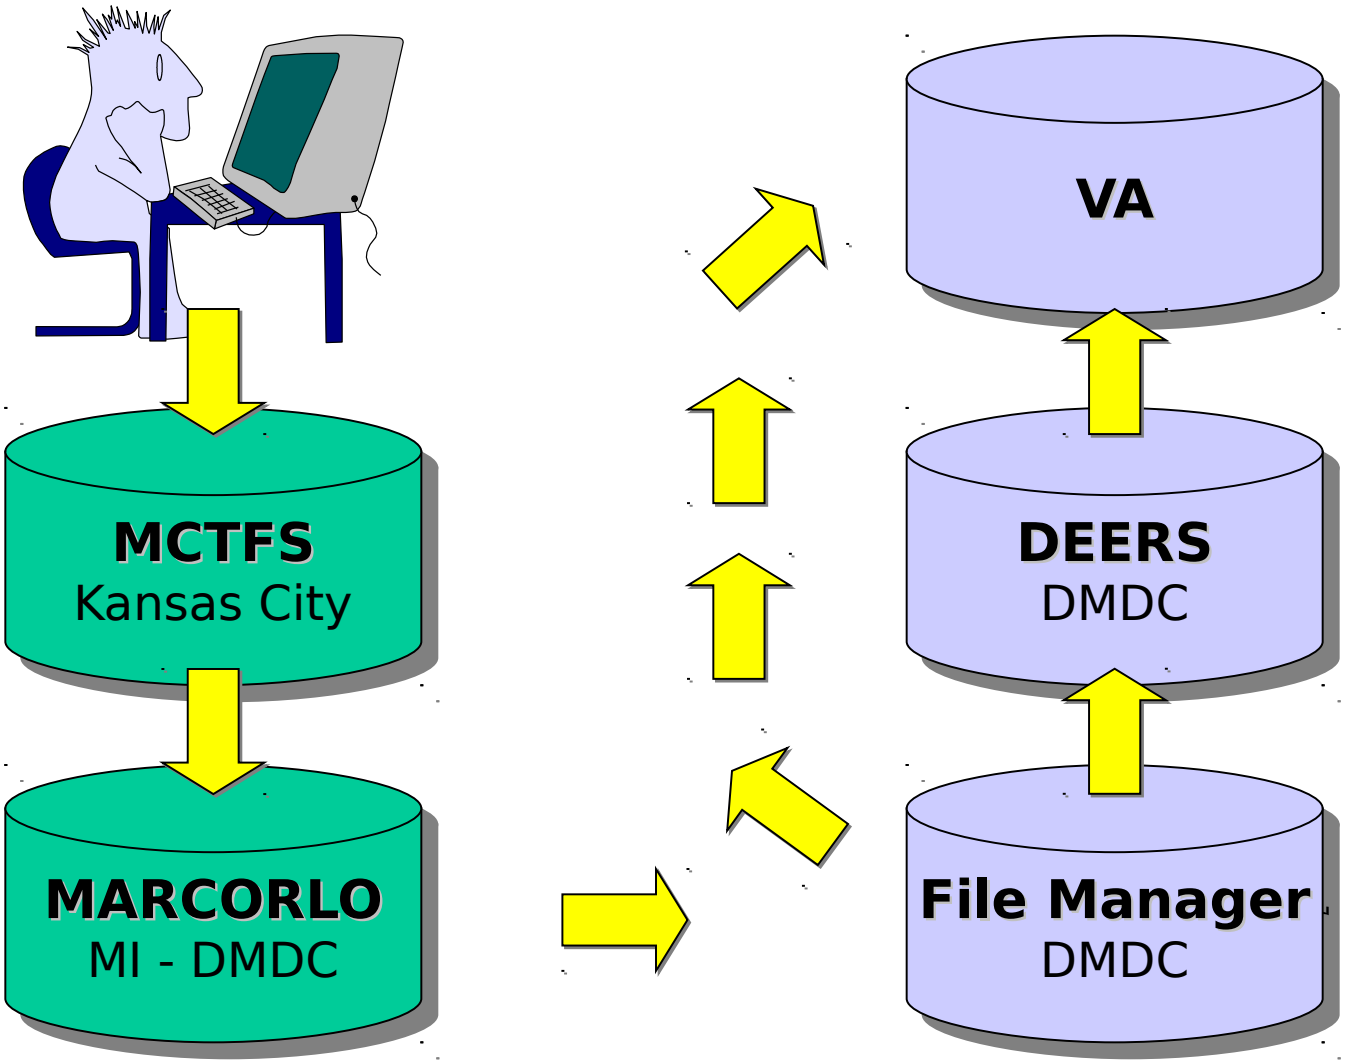
UNCLASSIFIED

What MCTFS data goes to DEERS?

- SSN
- Training Category Pay Group
- First, Last, Middle Names
- Date of Birth
- Gender
- Marital Status
- Race/Ethnic Code
- Education Level
- Number of Dependants
- Service Spouse SSN
- PEBD
- EAS
- Active Duty Start and Stop Dates (USMCR)
- RECC (USMCR)
- Date of Rank
- Pay Grade
- PMOS/AMOS
- Mandatory Removal Date
- BILMOS
- AFADBD
- Strength Category Code
- Country of Original Citizenship Geo Code
- Citizenship Code
- Current Enlistment Length
- Date of Appointment
- Separation Program Designator Code
- Reenlistment Code
- Character Of Service
- PRUC/PMCC
- TAD/FAP/Assigned RUC
- MGIB Data
- Language Data

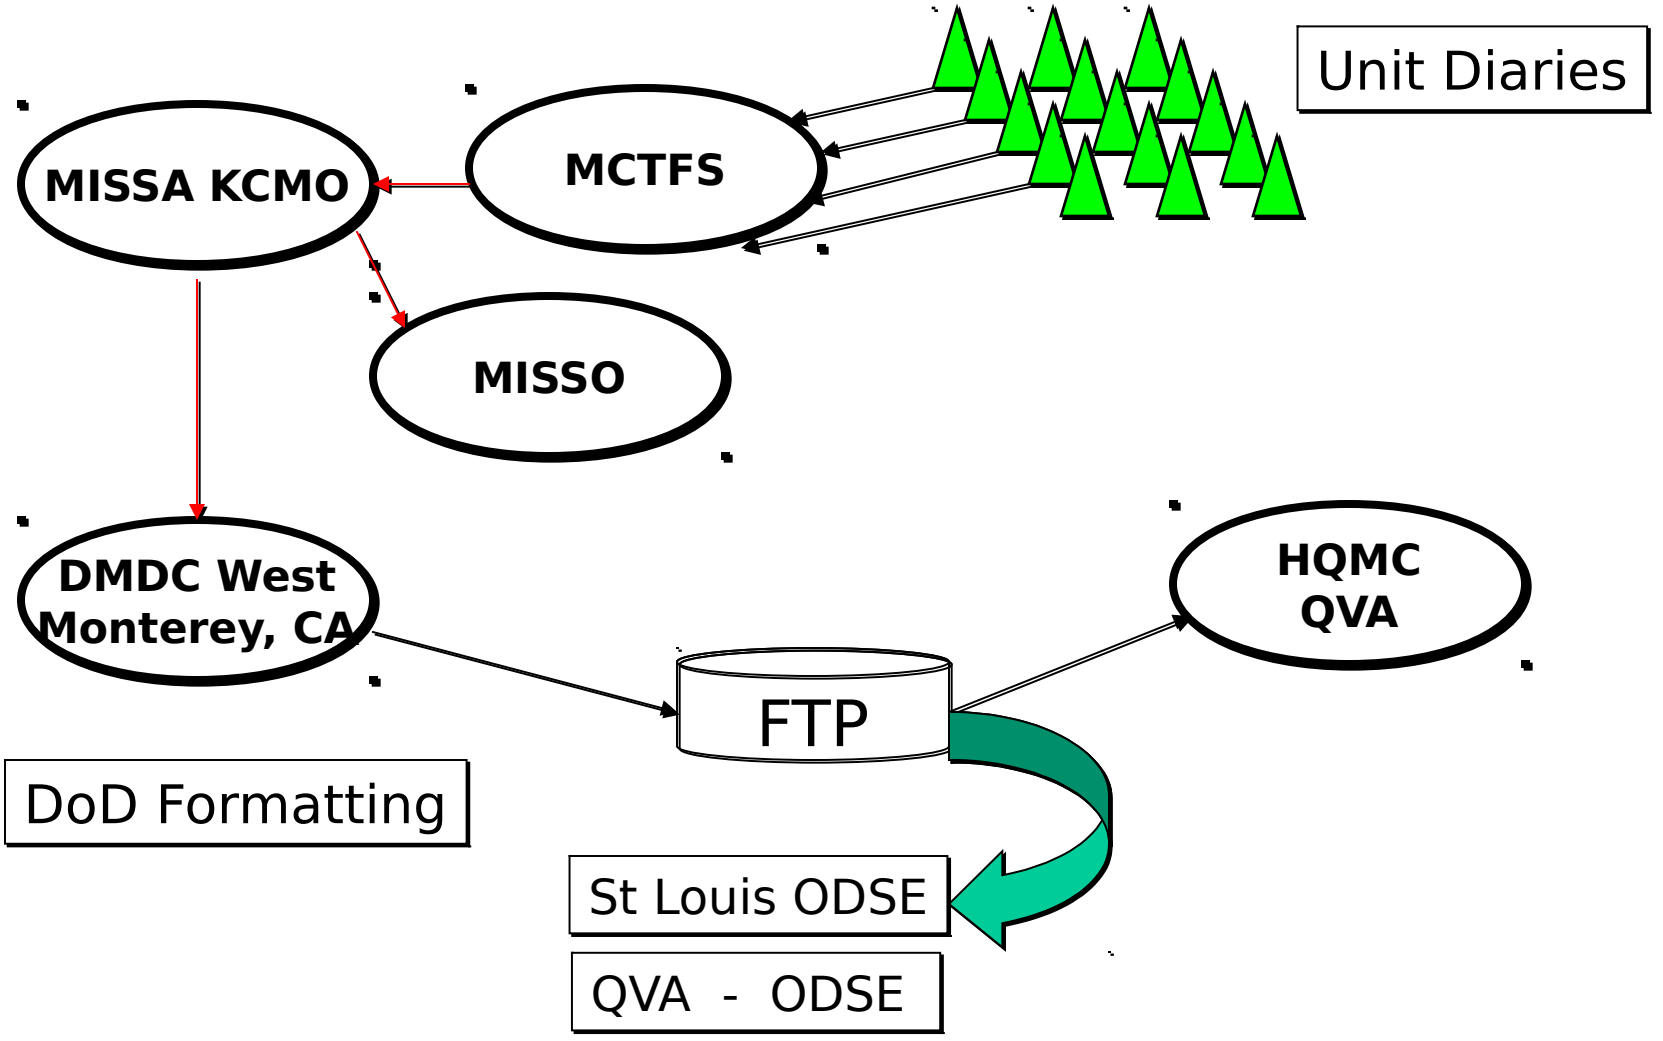
Just to list a few…

Where the data goes

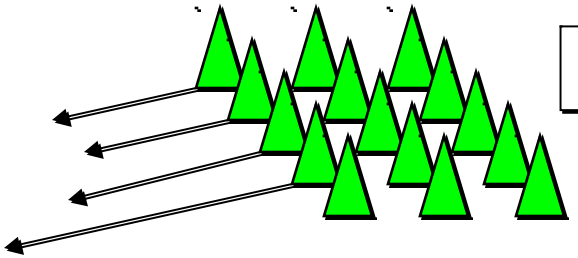


RCCPDS DLT

The Manpower System



The Manpower System



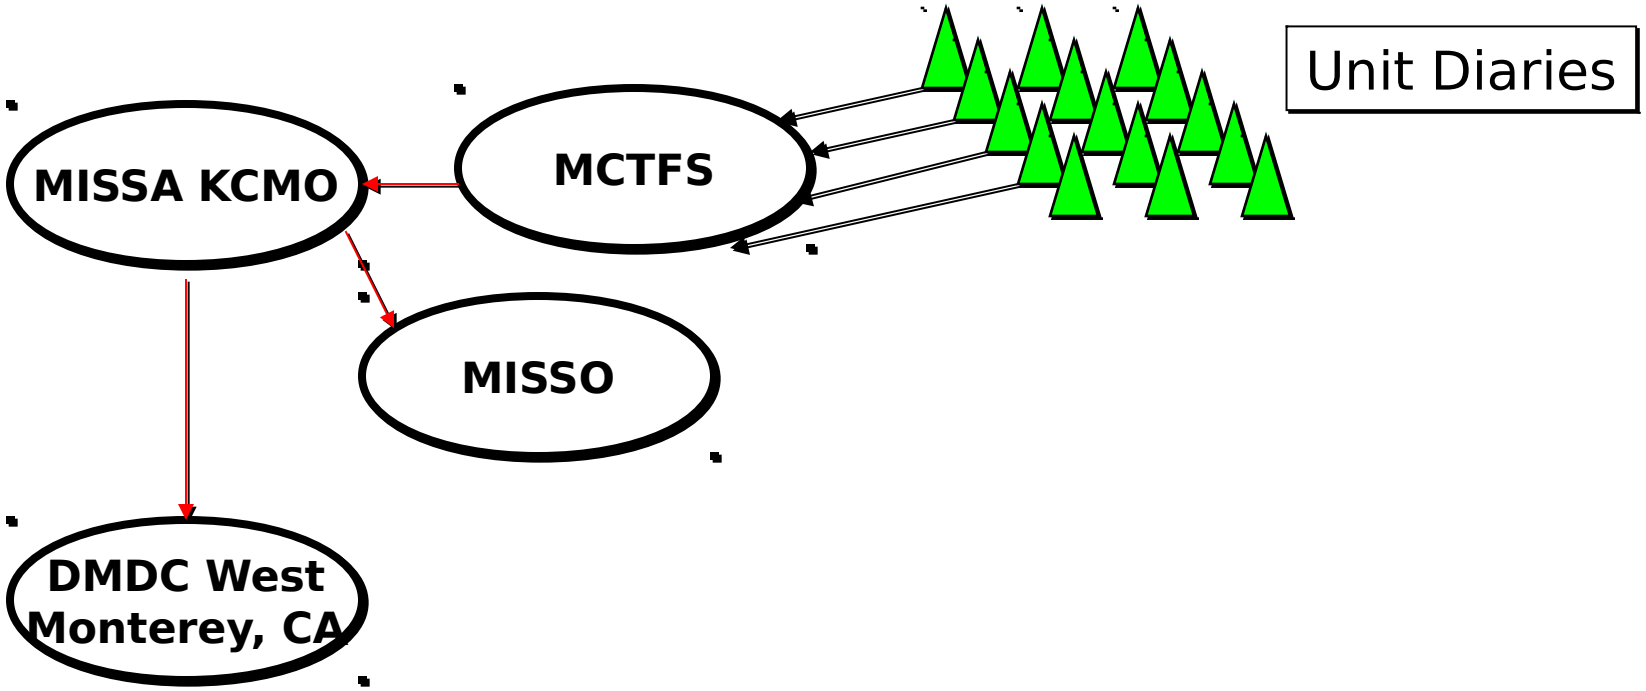
Unit Diaries

RCCPDS DLT

- Diary Entries are input by Administrators
- MCTFS entries from Unit Diary Clerks are pulled into a cycles by MISSA, thus creating a MCTFS Cycle.
- MISSA applies RCCPDS Decision Logic Tables to the data in prep for its transmission to DMDC West.

RCCPDS DLT

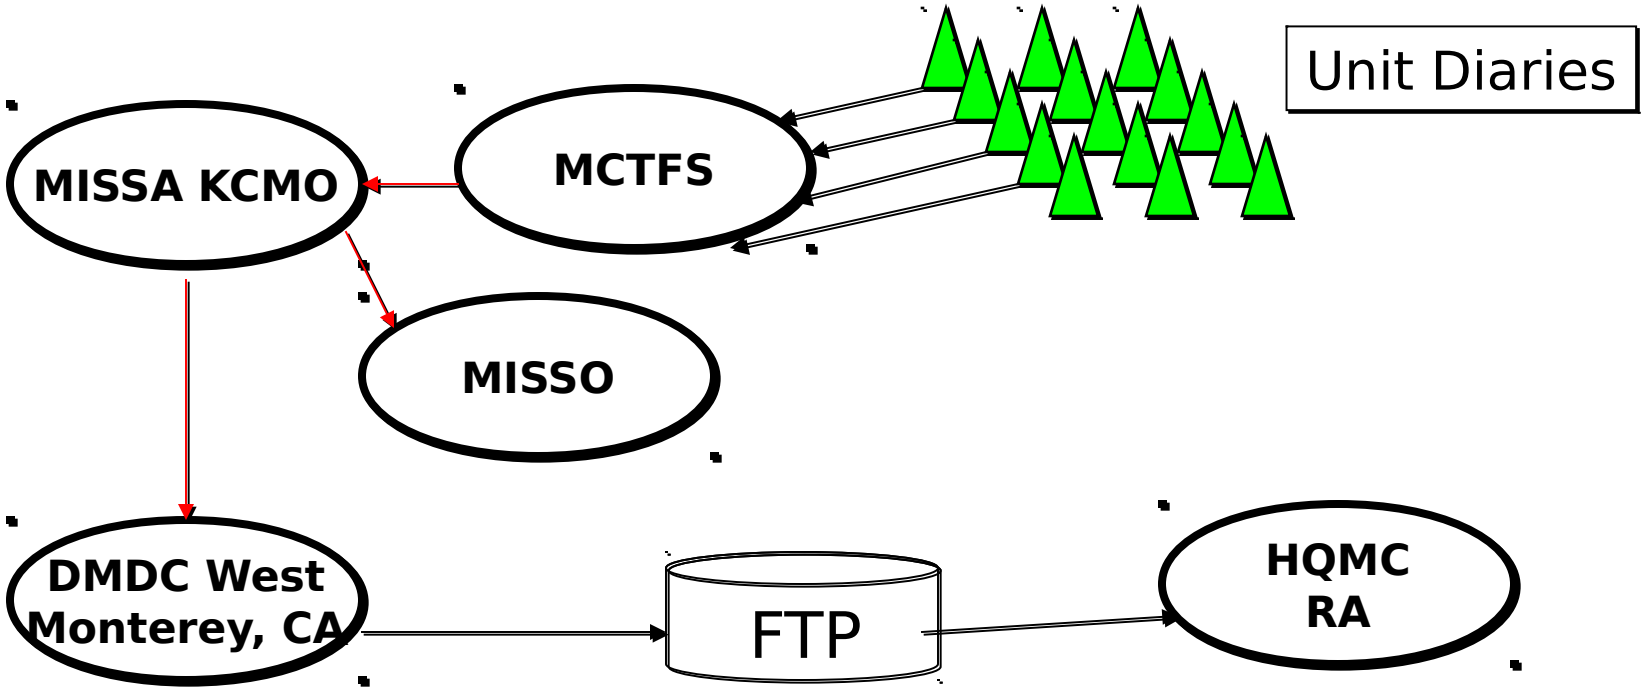
The Manpower System



- DMDC-West formats the MCTFS data in DoD / RCCPDS language and forwards it to the customer.

RCCPDS DLT

The Manpower System

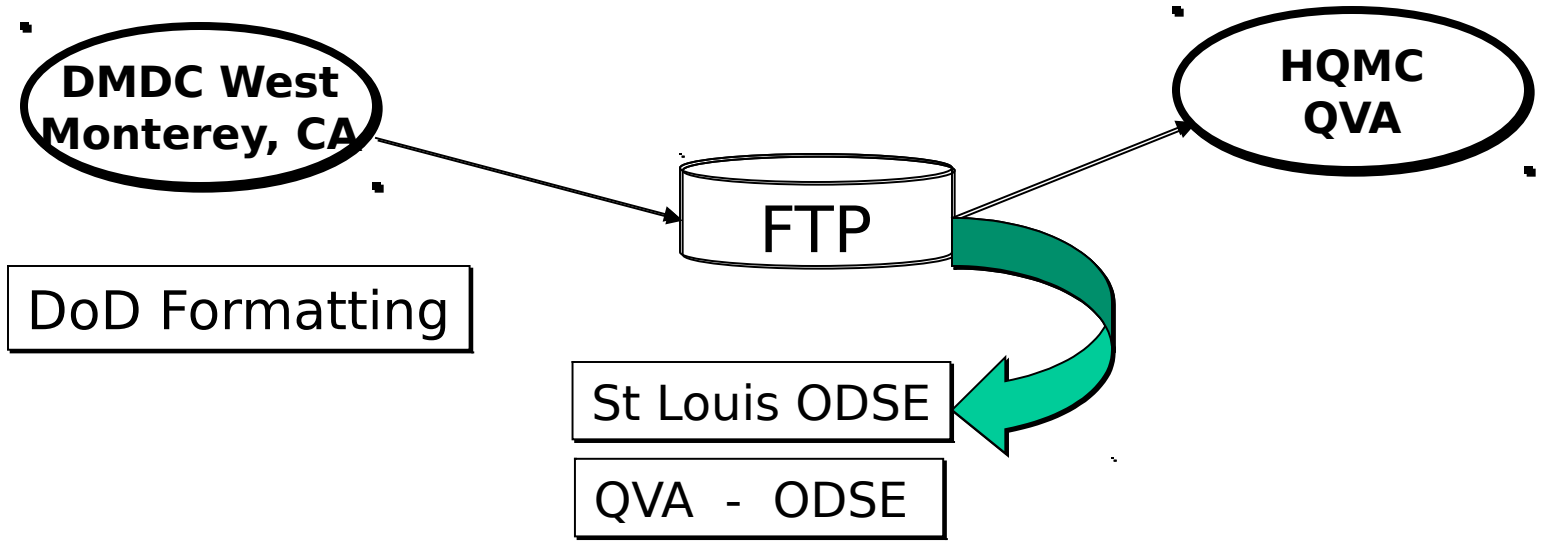


- HQMC (RA) – Quantico retrieves the data sent by DMDC West. It includes:
  - Receives RCCPDS Master File from DMDC
  - Receives RCCPDS Transaction File from DMDC

RCCPDS DLT

The Manpower System

- Additionally, this data is sent to/retrieved by the ODSE at St Louis and Quantico
  - St Louis has the “current information”
  - Quantico ODSE is used for historical purposes (to build the Total Force Data Warehouse and Reserve Power Play Cubes)



What the data is used for

- Provides information to aid decision makers at HQMC, DoD, Congress, Executive Branch
  - Examples:
    - Budgeting
    - Facilities
    - End-Strength
    - Mobilization
    - Health care related studies

What the data is used for *Cont'd*

- Determining eligibility of service members and their families for entitlements
  - Examples:
    - Medical/Dental
    - MGIB
    - VA Loan
    - Combat zone tax exclusion

What the data is used for *Cont'd*

- Reporting Contingency Data to HQMC, Mobilization Plans Branch.
  - In support of "Crisis" Manpower Tracking
- Reporting to Office of Secretary of Defense and Joint Chiefs of Staff.
  - PERSTEMPO – Legislation which requires DOD to track number of days a service member spends in theater.

What we send to DoD *Cont'd*

- Examples of data initiatives:
  - DODI – Marine Liaison expresses Marine Corps interest and works with MI / MISSA to ensure changes are implemented.
    - Early Tricare Benefits
    - Crisis Reporting
    - Civilian Employment Reporting
    - PERSTEMPO Reporting
    - Deployment Location Reporting
    - National Call to Service Implementation

Other Liaison Functions

- Represents the Entire Marine Corps:
  - Regarding any / all DoD data matters
    - First Stop for Matters requiring Marine Corps Action
    - Locate Marine Corps Program Offices
    - Ensure DoDI implementation is achieved
    - Respond to Ad Hoc Queries from anyone ?
    - Write software to extract M/C data from DOD tables
    - Act as NOC, granting access to critical DOD Aps.

Other Liaison Functions *Cont'd*

- HQMC/MI Action Officer
  - DMDC Liaison does not work for DMDC, but reports to HQMC/MI.
  - Assigned by Director, MI to resolve matters that pertain to Marine Corps / DOD. (Normally).
  - Works closely with M/C Program offices and DoD to ensure that M/C interest is represented
  - Provide input on MCTFS System Change Request that affect RCCPDS processes.

Other Liaison Functions *Cont'd*

- HQMC/MI Action Officer
  - Deployment Location Reporting
  - Early Tricare Benefits
  - National Call to Service Implementation
